

About Continuity Care

Continuity Care has been established in response to local community demand for culturally informed, quality in-home aged care and disability support services by health care professionals with over 20 years of experience.

Continuity care understands the need and importance of culturally appropriate person-centred care that values the choices made by individuals and encourage them to be involved in their self-care. This enables individuals to achieve greater independence and satisfaction ultimately increasing quality of independent living.

We provide continuous care which enables individuals to live confidently at their home as much as possible. Continuity care operates and provides services upon the values of:

Person-Centred care, Professionalism, Collaboration, Accountability and Innovation and Technology.
